ERIN VILLAGE GRAVITY SEWER LOCAL ROAD CLOSURES

Contract: 2022-04W

To facilitate microtunneling shaft installation on Lorne Street, Dundas Street E., and Water Street, road closures will be necessary during the construction period. On August 17th, Dundas Street E. at Main Street will be closed for shaft installation. In the coming months, road closures will be in place at Lorne Street and Water Street (see map on page 2).

The detour route for the Dundas Street E. road closure is identified on page 2, and detour signage will be in place prior to the road closure. At present, shaft installation is in progress at Scotch Street, which will be closed to through-traffic to ensure the safety of workers, road users, and residents.

Throughout the construction period, access to properties on the affected local roads will be available via Daniel Street and Hillview Avenue. All vehicular traffic must adhere to the posted speed limits on local roads.

Two-way traffic flow will be maintained on Main Street, and road jogs will be implemented as necessary to accommodate shaft construction. Access to local homes, businesses, and emergency services will be maintained at all times.

Construction Start: July 2023
Anticipated Completion: September 2024

**Timeline is subject to change.*

MORE INFORMATION AND CONSTRUCTION UPDATES

We apologize for any inconvenience caused and thank you for your cooperation and patience as we work to improve the infrastructure in Erin Village. The Town and Contractor will make every effort to minimize impacts to the community during construction. **Local businesses will remain open and accessible throughout the construction period.**
