BUILDING DEPARTMENT

BUILDING PERMIT FEE SCHEDULE

1. Permit fees will be charged as outlined in Table 1.
2. Any building permit not otherwise listed in Table 1 will be assessed at 1% of its construction value. Construction values submitted are at the discretion of the Chief Building Official.
3. All fees listed with minimum fees, ft² or m² rates are to be calculated and the permit fee will be the higher amount.

4. Square foot/square meter is gross of all floors above grade measured from the outer face of exterior walls unless noted otherwise mezzanines, lofts, habitable attics and dwelling units below grade are included as floor areas for permit fee calculations. Where there is no floor or exterior walls for the project, square foot is the greatest horizontal area of the structure. For example, buildings or structures supported by posts or columns.

5. Fireplaces, HVAC, Plumbing, attached garages, decks and porches are included in the permit fee for new residential buildings not more than three (3) stories and not exceeding 600 m² where submitted plans for the new building include these details.

6. The Statistics Canada Consumer Price Index (CPI) will be imposed annually as an inflationary increase to all building permit fees, to help ensure fees keep pace with changes in the cost of service.
